

## **National Security**

One important change this year is that the “Salute to Servicemembers Award” falls under National Security. This award was established in 2003 and has evolved from honoring women veterans to honoring ALL enlisted personnel who are currently serving our country in the Army, Navy, Marine Corps, Air Force, Coast Guard, Space Force and the National Guard/Reserve. The award is not gender specific. The form is available online at <https://www.legion-aux.org/Salute-to-Servicemembers-Award-Form> and must be submitted online. There are specific narratives that are needed along with the completed award form, so gather all the information before filling out the form. Wouldn't it be great to have a service member from Indiana represented at the National Convention in Charlotte? The deadline to submit is June 1<sup>st</sup>. Please think about who you can nominate for this prestigious award.
